- TPO/26/0669/MM 49 Lanthorne Road, Broadstairs CT10 3NA

- TPO/26/0747/MM Manktelow Court, Ramsgate Road, Broadstairs CT10 2EG
The Committee unanimously recommends NO OBJECTION with the following comments: While we recognise the statutory default is a 1:1 replacement, this tree holds high amenity value. We strongly urge the applicant to voluntarily adopt the Broadstairs Canopy Mitigation Matrix to plant additional smaller strains to offset localised canopy loss.

ii) **RESOLVED** unanimously that the standard response should be sent into all other tree applications on the weekly lists (standard response and applications set out below):

The Planning Committee of the Town Council has considered the applications below and resolved unanimously that the application be subject to inspection by the TDC Tree & Conservation Manager.

The Planning Committee request that the stance and recommendations in the TDC Tree & Conservation Manager report are taken into consideration when deciding applications for tree works and any suggested conditions are clearly stated to the applicant in the consent letter.

The Town Council policy for work on trees is as follows and we would respectfully ask that our recommendations are provided to the tree owner with any permission granted:

- Healthy trees are retained wherever possible.
- Only diseased or dying trees to be felled and only subject to a suitable replacement being planted. Where trees are being felled because of overcrowding, thinning rather than removal of all trees should be considered wherever possible.
- Remedial tree works i.e. Crown lift / Crown thin / Height reduction etc., to be kept to a maximum of 20% and expressed as such in the application.
- Works required for structural reasons i.e. impact of root damage to foundations and drains must be supported by recognized structural engineering evidence as well as a report from the TDC Tree and Conservation Manager.

- It is a criminal offence under the Wildlife and Countryside Act to disturb nesting birds. However, birds can roost in any month of the year. We require the applicant to check for nesting or roosting birds before undertaking works to trees and if birds are found to be nesting, for works to be postponed until nesting is complete. If birds present on the site are of high conservation concern ('red list'* or 'amber list' birds**), permission for the works should be refused unless there are overwhelming reasons for it to be given.

- No tree works should be permitted to take place during the main nesting period from mid-March until the end of August. Birds can nest or roost in any month of the year.

* House Sparrow, Starling, Song Thrush
